Every show on the network buttons, day by day

The schedules come from real 1946 to 1951 Radio Mirror listings. Each page lists the shows on each network that day, the episode that plays, and when it first went on the air.

How to listen

On a phone or computer: go to audioadventure.net and press a network button (NBC, CBS, ABC or Mutual) under the dial.

On a Roku TV: open the Radio Days channel and choose Network Radio.

Free, with no ads and no sign-up.

How to read the guide

Times are your own local time: an 8:00 pm show plays at 8:00 pm where you are.

Shows play at their times, like a real radio. Between them, local programming and music from 1913 to 1924 fill the air; they aren't printed here.

Many shows pick up each week where they left off, the way they did on the air. "On this date" means the episode first aired on this very day of the year.

A good way to start

Pick an evening, settle in at 7:00 or 8:00 pm, and press a button. Switch networks any time, the way families turned the dial.
